My husband loves my new hair!

My hair loss started about three years ago and I tried to hide it by wearing headbands. I started looking on the internet but it wasn't until I talked to Advanced Hair Studio about their **STRAND-by-STRAND**[®] procedure that I realised I could afford to do something about my hair loss.

My husband says I'm back to my old self again... I'm so happy with the end result!

Now I am going to my son's upcoming wedding and don't have to worry about the family photos!

Having a full head of hair gives me back my healthy look.

It's been almost a decade since I became ill and started losing my hair. The thing that prompted me to see Advanced Hair Studio was a Shane Warne commercial, that got me thinking if they could do that for men, surely they could help women with hair loss problems.

I was so nervous in the early stages, but the understanding of the staff helped get me through.

For me, now having a full head of hair is showing the world I'm not sick, and just as importantly I'm not reminded of my sickness when I look in the mirror.

My full makeover is now complete!

A few years ago I had some cosmetic surgery and I then decided to also do something about my thin hair. I tried hair extensions to thicken my hair, but all they did was pull my hair out, so it looked even worse!

I then did some research to find a place local to me that could offer an alternative and went to a consultation at Advanced Hair Studio. Once their procedure was explained, I was sold on the spot! Now I've got the hair I wanted, I absolutely love it!
